We Welcome Charge Accounts

We invite you to take advantage of a charge account with us. So that no time will be lost in executing your first order, please refer, preferably, to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

Cash discount above does not apply to dealers' orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

Conditions of Sales

All contracts, sales, and acknowledgments of orders are contingent upon crop failure, our ability to import and make deliveries in conformity with the "Plant Quarantine Act," partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included; also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order.

Forwarding Service

We pay postage on all orders for Vegetable and Flower Seeds provided the order calls for packets, ounces, quarter pounds, or pounds (beans, corn, peas and grass seeds, bulbs, plants and sundries are not included). If these are wanted by mail, remit for postage the amount named in connection with the item to the first and second zones; for other zones add additional postage. If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

Important Notice

All shipments of plants, perishable stock, and cold-storage bulbs are made at buyer's risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the actual arrival of goods (except at points where there is no Freight or Express agent) will still be continued, and claims for loss or non-arrival of merchandise not perishable will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

Ageratum, Michell's Blue Boy

EXTRA-DWARF, NOVELTY

This Michell's Strain is the result of many years' careful selection. Plants are compact and very dwarf, growing about 4 inches high. Growth uniform and even; plants are almost completely smothered with the richest shades of blue. Trade pkt. 50c.; \$3.50 per oz.

Rustproof Antirrhinum • Snapdragon

This strain has proved excellent under extensively wet outdoor conditions. They have stood the tests and are better than 75 per cent rustproof. For growing outdoors for cutting or bedding, they will prove excellent. Each plant produces from 15 to 18 spikes, which are non-lateral, with flower-heads 10 to 14 inches long. They are of vigorous growth with broad, dark green foliage practically immune from rust.

New Rustproof Varieties

MICHELL'S NEW IMPROVED RUSTPROOF, CHEVIOT MAID SUPREME. We are proud to introduce this splendid new Snapdragon, which we believe to be the first rustproof in the forcing types. This variety will prove equally good for outdoor cut-flowers as well as greenhouse forcing. 1/2 trade pkt. 60c.; \$1.00 per trade pkt.; 1/8oz. \$2.50.

Aster, Early Giant Wilt-resistant, Light Blue

Silver Medal, 1939 All-America Selections. The flowers of this strain are very similar to Giants of California—very large and full, with broad, graceful petals, daintily plumed and intertwined. The plants, however, differ considerably from the Giants of California as they are only 1 1/2 to 2 feet high, with branches coming from low on the central spike. They are of very early blooming habit, coming into flower the first week in September. Trade pkt. 50c.; \$3.50 per oz.

Aster, Crego, Enchantress WILT-RESISTANT (NOVELTY)

An entirely new color in Asters—a lovely shade of lively salmon-rose, one of the brightest colors yet developed. The flowers are exceptionally large and of good substance. Plants are branching and free flowering, producing blooms in early September. Trade pkt. 40c.; \$2.00 per oz.

Aster, Giant Comet, Illusion WILT-RESISTANT (NOVELTY)

Another new color in the wilt-resistant Asters. Illusion is a soft pastel shade of apricot-pink, especially fine for cutting and most effective when used in combination with some blue flower. The plants are of upright growth, about 2 feet tall, and very free flowering. This strain will flower the latter part of August. Trade pkt. 40c.; \$2.00 per oz.

Cuphea, Firefly

Calendula, Michell's Sunbeams

An exclusive Michell's Novelty. This is a very choice florists' cut-flower—an exquisite blending of many delightful shades and color combinations, ranging from pale cream to deep orange. The flowers are of various types and forms, with extra-long stems which make them excellent for cutting. Trade pkt. 40c.; 60c. per 1/4oz.; oz. \$2.00, \$6.50 per 1/4lb.

Celosia cristata, Royal Velvet

Honorable Mention, 1939 All-America Selections

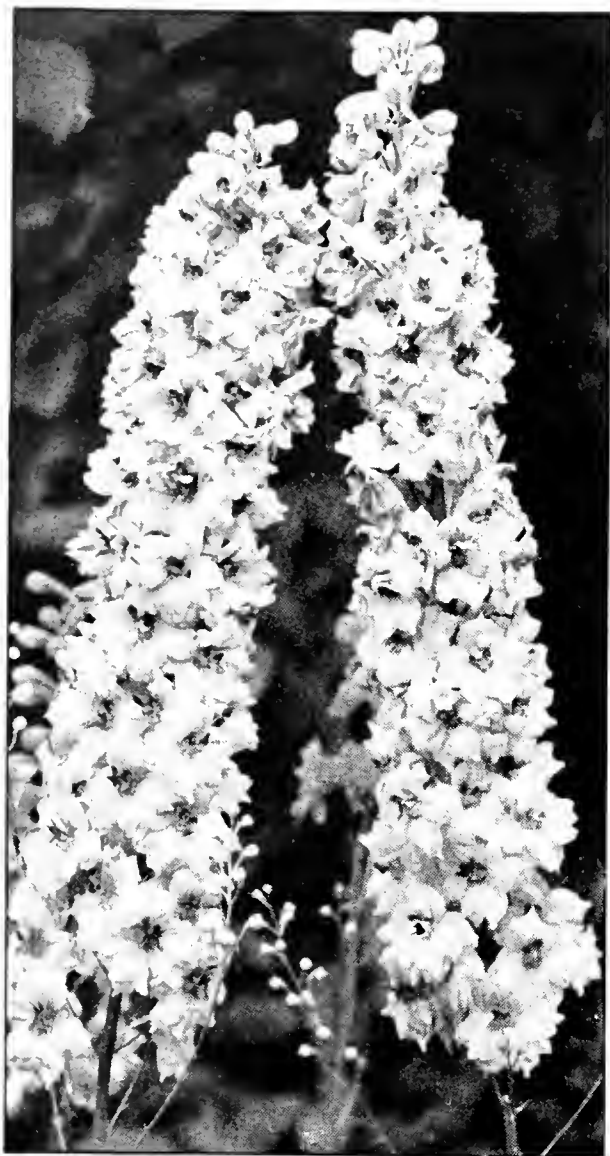

Early-blooming, basal-branching cockscomb type. Extra-large center head of rich ruby-red with velvety texture surrounded by numerous erect branches mounted with medium-sized combs. Plants are about 2 feet high, very uniform and symmetrical in growth. The long-stemmed branches are excellent for cutting, especially for commercial purposes; also for dried winter bouquets. If center head is not desired, pinch out when plant is young. Trade pkt. 50c.; \$1.00 per 1/8oz.

Cuphea, Firefly NEW

This newcomer has all the characteristics needed in a dwarf, compact plant, and is most suitable for pot-plants, rockeries, window-boxes, borders, or bedding. The plants reach a height of 10 inches and are completely covered with brilliant scarlet flowers. It is a tender annual, flowering from seed in 12 to 14 weeks, and will bloom profusely throughout the season. Trade pkt. 50c.; \$1.25 per 1/8oz.

Aster, Early Giant Wilt-resistant, Light Blue

Delphinium, Giant Pacific Hybrids

Cosmos, New Double Early Sensation, Mixed

The flowers are equally as large as the regular single Sensation. Two types, fluted and crested. The crested type has a large 2-inch crested center and the fluted are so double they resemble a camellia. Available this season in a mixture only of white, pink, and crimson. Original trade pkt. (120 seeds) \$1.00.

Delphinium • Perennial Larkspur Super Giant Pacific Hybrids

This superb new strain is, without doubt, the finest in existence. The spikes are strong, growing 5 to 6 feet, closely set, and the flowers are as large as a silver dollar. Ipomoea (Morning-Glory), Scarlett O'Hara

Gold Medal, 1939 All-America Selections. A new early-flowering Morning-Glory. The blooms measure from 3 to 4 inches in diameter and are a vivid scarlet, but lacking the harshness usually found in this color. Although not readily seen, there is just enough orange hidden in the color make-up to give the impression that the blooms are of soft velvet. A very early bloomer. The first flowers will begin to appear in about sixty-five days from seed. Very prolific bloomer, and the flowers remain open all day, even in the warmest weather. Trade pkt. 50c.; \$3.00 per oz.

Russell Lupines

This new strain of perennial Lupines has caused a sensation in horticultural circles. The long, closely furnished spikes come in a great variety of rich colors—deep yellows, oranges, reds, and brilliant bicolors never before seen in Lupines. The florets are large, with flat, fanlike standards, and, unlike all other Lupines, most of the spikes retain their florets throughout the whole period of development. We offer seed grown from the originator's stock. Trade pkt. 50c.; \$1.00 per 1/4oz.; oz. \$3.50.

Marigold, Gigantea, Orange Sunset

An outstanding sort. Orange Sunset is one of the foremost varieties of the year. The flowers average 5 inches or more in diameter and are unquestionably the largest Marigolds to date. The color is a deep, rich, lively orange. Flowers are very full, centered with broad, heavy, wavy petals which gracefully overlap to make them ideal not only for garden decoration but for cut-flower use as well. Trade pkt. 60c.; \$1.25 per 1/4oz.

Marigold, Dwarf French Scabious-flowered Coronet

A new strain of the ever-popular Harmony Marigold, the flowers of which have a deep golden yellow center with brown guard, coming absolutely true from seed. Splendid for borders or cut-flowers. Trade pkt. 50c.; \$1.00 per 1/4oz.

African Marigold, Gigantea, Sunset Giants NOVELTY

A new departure in Marigolds, with flowers the largest ever known in that group, averaging 5 to 7 inches. It is exceptionally free flowering and lacks the usual Marigold odor. Plants grow 3 1/2 to 4 feet high. The flowers are loosely formed, with broad, heavy petals and in a mixture ranging from deep orange through light lemon-yellow. This strain comes 50 per cent double. Trade pkt. 40c.; \$2.00 per oz.

Marigold, New Sunrise

An early-blooming form of Dixie Sunshine. The flowers are large and ball-shaped, composed of dozens of tiny petals gracefully interlocked and daintily fringed in effect. The color is a rich brilliant golden yellow and most important is the fact that Sunrise comes 100 per cent true. The plants are tall and bushy. Trade pkt. 50c.; \$1.25 per 1/4oz.

Nierembergia Hippomanica • Dwarf Cup-flower NOVELTY

A lovely new annual growing 5 to 6 inches tall, and completely covered with small, cup-like flowers of a lovely lavender-blue shade, with a touch of yellow in the centers. The plants are definitely dwarf and compact, with a spread of 8 to 10 inches, and commence to flower 15 weeks after seed is sown, continuing all season. Trade pkt. 50c.; \$1.25 per 1/4oz.

Petunia grandiflora nana compacta, Velvet Ball (Dwarf Flaming Velvet)

Bronze Medal, All America Selections

This new Grandiflora nana compacta type is the last word in excellence for compactness, dwarfness, and free-flowering character. The plants reach a height of about 8 inches with a spread of only 8 to 10 inches, and will have a dozen or more flowers in bloom at a time, each comparatively large, about 2 1/2 inches in diameter, well shaped, and of a deep, luscious shade of velvety blood-red. Trade pkt. 75c.; \$1.50 per 1/2oz.

Marigold, Dwarf French Scabious-flowered Golden Harmony

New. A solid bright golden yellow with the same color guard petals. Plants are very compact and free flowering. Trade pkt. 50c.; \$1.00 per 1/4oz.

Marigold, Chrysanthemum-flowered Hybrids NOVELTY

These hybrids consist of many new and distinct types of Marigolds, the blooms of which measure from 2 to 4 inches in diameter. Some of these types have petals which are very quilled and incurved, resembling a miniature American Beauty aster, and colors range in all shades of orange and yellow. The plants grow about 3 feet high, supporting masses of flowers on fine stems for cutting. Trade pkt. 40c.; \$2.50 per oz.

Petunia, Velvet Ball

Petunia grandiflora, Hollywood Star, is different

Petunia grandiflora, Hollywood Star

Silver Medal, 1939 All-America Selections. This lovely new Petunia is a charming shade of rich rose with an amber throat. The flower is unique—it is in the form of a five-pointed star. This is a very fine garden variety, as it is early and free blooming, and the strong, vigorous plants are so smothered with blooms that hardly any foliage shows. Trade pkt. 75c.; \$1.25 per 1/8oz.

Petunia, Giants of California, Bodger's Supreme Florists' Strain

This new strain we believe to be the finest of the well-known Giants of California type. The flowers are very large, ruffled, with open throats, and the color strain is unsurpassed. Zinnia, New Scabious-flowered, Sunburst

A new strain with medium-sized flowers, $1\frac{1}{2}$ to 2 inches across, carried on strong stems of medium length. Plants are 2 to $2\frac{1}{2}$ feet in height, branching and free flowering. Zinnia, Scabious-flowered, Autumn Tints, Mixed NOVELTY

This new strain, which has been named Autumn Tints, is perfect in form of flower and comes true. Michell's "Distinctive" Antirrhinums

Rustproof Antirrhinum · Snapdragon

We are glad to announce that, after years of intensive work in an attempt to produce a strain of rustproof Antirrhinums, success has finally been achieved. This strain has proved noteworthy under extensively wet outdoor conditions; they have stood the tests and are better than 75 per cent rustproof. For growing outdoors for cutting or bedding, they will prove excellent. Each plant produces from 15 to 18 spikes, which are nonlateral, with flower-heads 10 to 14 inches long. They are of vigorous growth, with broad, dark green foliage and are practically immune from rust.

New Rustproof Varieties

MICHELL'S NEW IMPROVED RUSTPROOF, CHEVIOT MAID SUPREME. We are proud to introduce this splendid new Snapdragon, which we believe to be the first rustproof in the forcing types. The color is a rich coral-rose and the non-shattering, large florets are closely set on heavy spikes with good, wiry stems. This variety will prove equally good for outdoor cut-flowers as well as greenhouse forcing. ½ trade pkt. 60c.; \$1.00 per trade pkt.; ⅛oz. \$2.50.

SUPER MAJESTIC

This new group is superb for cutting or for bedding, and we believe it will also prove to be excellent for greenhouse culture.

Michell's Superb Asters

We wish to emphasize the fact that our Asters are grown for us by specialists, and nearly all varieties under our own supervision. **Michell's "Distinctive" Quality** is nowhere more prominent than with our Asters, and we can recommend them with the utmost confidence. Our seed is selected from plants which are free from disease.

SPECIAL NOTE.—In growing Asters, old soil and flats should never be used the second time without thoroughly sterilizing, to avoid the numerous diseases to which Asters are so susceptible. Barnyard manure should never be employed as a fertilizer. We recommend the use of finely ground bonemeal. Asters should not be grown in the same location two years in succession.

Fusarium-Wilt Resistant Strains

These we believe to be practically immune to this disease. We feel sure that by using this seed many disappointments due to crop failures will be eliminated.

SINGLE GIANT CALIFORNIA SUNSHINE

This supremely beautiful new race of Asters is the result of a direct cross between California Giant and the Dwarf Sunshine type. The plants grow 3 feet high and bear blossoms 5 to 6 inches across, on long stiff stems. The dual color-tone effects formed by the quilled discs and encircling guard petals are lovely beyond description; the quilled discs are lighter than the guard petals and as the flowers age the lemon centers turn to the color of the outer petals. We highly recommend this lovely Aster.

LARGE DOUBLE-FLOWERING PETUNIAS

The latest development in Double Petunias is the new Alldouble strain which produces 100 per cent double flowers. We offer the following selected varieties in this strain and feel quite certain that they will prove a sensation with the florist trade, especially for pot-plants for Mother's and Decoration Day.

ALLDOUBLE APPLE BLOSSOM. Honorable Mention, 1939 All-America Selections. A beautiful apple-blossom-pink. Plants dwarf, 12 to 15 inches high, covered with large, double fringed flowers. A small percentage will be of the carnation type. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds).

ALLDOUBLE ORCHID BEAUTY. All-America Novelty. A decidedly new shade in the Alldouble Petunias. The habit of growth is dwarf and compact and flowers large and fully double. The color is a beautiful shade of orchid, which should prove very popular as it blends beautifully with the pink colors in this group. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

ALLDOUBLE GAIETY. Special Mention, All-America Selections. Rose-red and white, beautifully frilled. A popular color combination. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

ALLDOUBLE, AMARANTH-RED. Bright amaranth-red, a new color in this popular strain. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

ALLDOUBLE, CARMINE QUEEN (World Beauty). An exceptionally fine dwarf type. Beautiful rosy carmine flowers which are very double. Other characteristics same as Victorious. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

ALLDOUBLE, LOVELINESS. Extra dwarf. Identical in habit to the popular Carmine Queen, with the exception of the color, which is a clear La-France-pink. A valuable addition to this group and especially useful to florists. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

ALLDOUBLE, WHITE QUEEN. Pure white, very double flowers, beautifully fringed. Extra dwarf and free flowering. 1/2 trade pkt. (500 seeds) \$1.25; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00.

DWARF ALLDOUBLE VICTORIOUS, MIXED. A giant mixed Petunia which produces 100 per cent double-flowered plants. The habit of growth is very dwarf and compact, the flowers large and fully double in many brilliant and fancy colorings, and it is very free flowering. An exceptionally fine type for pot-culture as the plants seldom grow more than 10 inches high. 1/2 trade pkt. (500 seeds) \$1.00; \$2.00 per trade pkt. (1000 seeds); 3 trade pkts. \$5.00; \$6.00 per 1/4oz.

The above variety is an origination of Mr. T. Sakata.

The following Double variety is a splendid strain producing an average of 60 to 70 per cent doubles.

NOTE. It is important not to discard the small seedlings, as these usually produce the best double flowers.

Double Fringed, Mixed. Superbly colored flowers of mammoth size. 500 seeds 75c.; \$1.50 per 1000 seeds

Please note, Double Petunias are a highly bred type, and the seed is not as vigorous in growth as that of single strains. Seed of all our Double Petunias has been carefully tested in soil and the germination has been found to average 70 to 80 per cent. For this reason, and because of its high cost, we cannot entertain claims on non-germination of this seed, or requests for replacements. If carefully handled, we know the seed will grow.

Novelty Varieties

IMPERIAL GIANTS, BLUE MOON. 1939 All-America Winner, Honorable Mention. This new type has flowers composed entirely of broad, heavy, wavy petals, eliminating the pincushion center entirely. In other words, the flower is literally fully double. Extremely large and deep, 2 3/4 inches across and 2 to 2 3/4 inches deep, about the shape of an old-fashioned beehive. The color is a rich deep lavender-blue, a shade which maintains its effectiveness indoors or out. Plants are extremely upright, growing tall (42 to 48 inches high) and the long, heavy, yet wiry stems hold the flowers proudly erect. This is an ideal cutting type. \$0 50 \$3 00

Giant Salmon Beauty. Pure salmon in color, with huge flowers. Splendid for cutting. 40 2 50

Michell's Distinctive Stocks

GIANTS OF CALIFORNIA

This magnificent new group is so marked in improvement that we believe they will head the list in florists' forcing Stocks in the very near future. Giants of California are very early flowering, with a high percentage of double mammoth flowers and have the branching habit of the Bismarck. If planted close they will nearly attain the height of the Column Stock, approximately 2½ to 3 feet. We can with confidence recommend this strain to the florist grower.

Those listed are, in the opinion of most florist growers, the only reliable colors to grow.

Sweet Peas

Novelty Sweet Peas

EARLY OR WINTER FLOWERING

Delicious. This splendid new early-flowering variety is a lovely new color—a shade of pale salmon and cream delightfully blended. The flowers are huge, and the habit and length of stem are everything a good Sweet Pea should have. Oz. \$1.00; \$3.50 per ¼lb.

Ball Improved Orange. A splendid large-flowering clear, deep glowing orange sort. Oz. 50c.; \$1.75 per ¼lb.; lb. \$6.00

Bridesmaid. Novelty. A delicate, sparkling shade of silver-pink and as vigorous and healthy and as slim and supple as the name implies. Bridesmaid bids fair to outstrip the field in popularity as a cut-flower in a large table arrangement. Its large flowers are usually in fours on stems 14 to 16 inches long. An ideal variety for shipping. Oz. 40c.; \$1.25 per ¼lb.; lb. \$4.00

Eileen. Rich begonia-rose, with salmon shadings, changing under certain lights to a dazzling cerise. This two-tone effect gives it a brilliancy never before obtained in a Sweet Pea. Oz. 40c.; \$1.25 per ¼lb.; lb. \$4.00

Josie. Rich, clear rose-pink; very large, long-stemmed flowers. A vigorous grower. Oz. 40c.; \$1.25 per ¼lb.; lb. \$4.00

Navy Blue. A new color in the earlies, and one that has long been wanted. It is a rich dark blue with four flowers to a stem. Long, strong stem and vigorous grower. ½oz. 60c.; \$1.00 per oz.; ¼lb. \$3.50

Sequoia. Novelty. Enormous, rich golden cerise flowers so frilled and with wings so widespread that unless one looks closely he mistakes a single flower for two. The folds of the petals have a tinge of russet. Free flowering and a strong, vigorous grower. Oz. 40c.; \$1.25 per ¼lb.; lb. \$4.00

Shirley Temple. New. This Sweet Pea, which we consider the most beautiful we have ever originated, was obtained through a cross between Pinkie and Lady Gay. It has inherited blooms with the size and richness of color in Pinkie, plus the dainty frilled and fluted flowers of Lady Gay. The color is softer and more beautiful than Pinkie. Stems long, with four very large blooms on each stem. (This is originator's description.) Oz. 40c.; \$1.25 per ¼lb.; lb. \$4.00

Michell's Distinctive Zinnias

We claim perfection in form, size and color for our strain of Zinnias, as those who grow them will attest.

Fantasy or Chrysanthemum-flowered Varieties

ORANGE LADY. 1939 All-America Winner. A new separate color in the Fantasy group, Orange Lady is a rich shade of deep, bright orange. The medium-sized, 2½ to 3-inch flowers are shaggy and gay in appearance, making a vivid spot of color in the garden and extremely desirable for cutting. Of strong growing habits, there are flowers in 45 to 50 days after sowing. Trade pkt. 50c.; \$2.50 per oz.

ROSALIE. 1939 All-America Winner. A worthy companion to Orange Lady. The color is a bright, intense rose, equally lovely in the garden or when cut. The plants are neat in habit, strong growing, free flowering, about 2½ to 3 feet in height. Its delicate, informal flowers, composed of a mass of shaggy, ray-like petals, are a contrast to the stiff, formal Zinnias. Trade pkt. 50c.; \$2.50 per oz.

STAR DUST. Novelty. All-America Winner. This informal Star Dust Zinnia will be welcomed with enthusiasm. It has the same shaggy-petaled, medium-sized flowers as the mixture, but the color is a rich, deep golden yellow. Plants grow 2½ to 3 feet high. Free flowering and an early bloomer. This variety will come true from seed. Trade pkt. 30c.; \$1.25 per oz.

MIXED COLORS (Bodger). Novelty. The rounded flowers are composed of a mass of shaggy, ray-like petals which give a delicate and refined appearance to the medium-sized, double flowers. The color-range includes the brightest of reds and oranges as well as the popular pastel pinks and creams. Trade pkt. 25c.; \$1.00 per oz.

Zinnia linearis

A very unusual and interesting new type of Zinnia. The flowers are single, in a lovely shade of golden orange with a delicate lemon stripe through each petal. Plants are quite dwarf and extremely early flowering, commencing to bloom when the plants are 6 inches tall, and are continually a mass of bloom until late fall. The plants grow 8 to 10 inches tall and spread as much as 2 feet. Trade pkt. 30c.; \$1.50 per oz.

Zinnia, New Gaillardia-flowered • Novelty

This is another of the newer type of Zinnias, the flowers of which strongly resemble the double *Gaillardia picta*. Plants grow to a height of 1½ to 2 feet, are free flowering, and produce blooms in a color-range of many delightful combinations. Trade pkt. 25c.; \$1.25 per oz.

Scabious-flowered Zinnia

SUNBURST. 1939 All-America Winner. A new strain with medium-sized flowers, 1½ to 2 inches across, carried on strong stems of medium length. Plants are 2 to 2½ feet in height, branching and free flowering. The color is a very bright, pure canary-yellow, dazzling in its intensity. Sunburst is a very showy garden variety and is particularly effective for home decoration. Early flowering, blooming 40 to 45 days from the time of planting. Trade pkt. 50c.; \$2.50 per oz.

AUTUMN TINTS, MIXED. This new strain, which has been named Autumn Tints, is perfect in form of flower and comes true. The real beauty, however, is in the lovely coloring of the flowers, which range through all the gorgeous autumn tints and include orange, bronze, russet, dull red, carmine-red and intermediate shades. Fine for cut-flowers, having long stems and splendid keeping qualities. Trade pkt. 40c.; \$2.00 per oz.

Desert Gold

A large-flowering type in shades of yellow and gold, each petal overlaid at the base with a deeper color, giving a charming bicolor combination. Trade pkt. 25c.; \$1.00 per oz.

Super Crown of Gold Zinnia Mixture

This is an aristocrat among Zinnias. The flowers are large and each petal is overlaid with a deep golden yellow at the base, while carrying out the individual flower color at the tip. This mixture includes all shades of rose, cream, yellow, carmine-pink, red, and lavender. A vigorous grower, reaching a height of 2½ feet. Trade pkt. 40c.; \$2.50 per oz.

Michell's Vegetable Seed Specialties

FOR MARKET GARDENERS

In line with our usual custom, we have taken from our general list certain specially meritorious varieties of vegetable seeds to which we call, on this and the succeeding page, special attention. Planters will do well to include these sorts in their seed orders.

For General List of Vegetable Seeds, see pages 35 to 48

Cabbage, Green Acre

Cabbage. Yellows-Resistant Varieties

Marion Market. A very large, round head. Early. Good shipper and a reliable sort for early kraut. 45c. per oz.; 1/4lb. \$1.50; \$6.00 per lb.

Jersey Queen. The first of the resistant types to mature. In type and earliness about the same as the Jersey Wakefield. 30c. per oz.; 1/4lb. \$1.00; \$3.50 per lb.

Wisconsin (Hollander). Splendid late Cabbage. The heads are large and very firm. Good keeper. 30c. per oz.; 1/4lb. \$1.00; \$3.50 per lb.

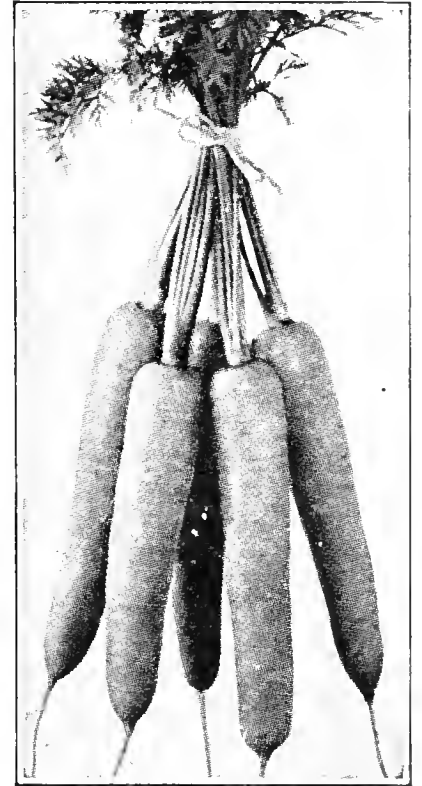

Cabbage, Green Acre

The Green Acre presents an entirely new type of extra-early, round-headed Cabbage. It is the only white variety which possesses an inherent green-colored surface of head and the first and only variety able to meet the present-day popular demand for new crop Cabbage, fresh and green. Green Acre is, without a doubt, destined to become the most popular early variety. 35c. per oz.; 1/4lb. \$1.00; \$3.50 per lb.

Carrot, California Bunching

A Recent Introduction of Fine Quality

Recommended for sowing in loose, friable soil. Top short, foliage coarsely cut, stems strong, making it a fine variety for the market gardener. Roots at full maturity are almost cylindrical and reach a size of 1 to 1 1/2 inches in diameter and about 8 inches long, smooth and free from side roots; color red; of fine quality. This variety is at its best when half grown. 15c. per oz.; 1/4lb. 40c.; \$1.25 per lb.; 5 lbs. \$6.00; \$11.50 per 10 lbs.

Carrot, California Bunching

Onion, White Bunching

An extra-fine variety for early spring and summer bunching. Seed sown early in the spring will produce long green scallions which blanch white and remain tender for a long time. They do not form a bulb on the bottom. 20c. per oz.; 1/4lb. 60c.; \$2.00 per lb.; 5 lbs. \$9.75; \$19.00 per 10 lbs.

Pepper, King of the North

A new and handsome early variety, which we recommend for growing in sections where the season is short. Fruits large and good packers for shipping. Color dark green, turning later to a beautiful red. Flesh fairly thick and mild in flavor. Plant sturdy and a great producer. 50c. per oz.; 1/4lb. \$1.65; \$6.00 per lb.

Pepper, King of the North

Cucumber, Straight 8

Fine dark green color, free from white tips. Grows 8 inches long by about 1 1/2 inches thick and is of remarkably uniform straight shape. This is good for shipping or for home markets. 20c. per oz.; 1/4lb. 50c.; \$1.75 per lb.; 10 lbs. \$15.00.

SUGGESTIONS IN CONNECTION WITH THE GROWING OF HARDY LILIES UNDER GLASS

Hardy Lilies should be grown cool and given 16 to 18 weeks from time of planting to bring them into bloom, so the best results can be obtained; in fact, if you can give them longer to come into flower it is better. Where they are forced with plenty of heat, the result is that you get good foliage with not so many early blooms. We refer particularly to *Magnificum*, *Melpomene*, *Rubrum*, and *Album*.

Lilium speciosum rubrum

Hardy Lilies

These are excellent for growing under glass as they force readily in a moderate temperature, as described above. Prices are for shipment up to May 1, and include all cold-storage charges. After this date an additional 20 cents per case, per month, will be made for cold-storage and insurance charges.

Fancy-Leaved Caladiums

We list only choice named and newer sorts, including Brazilian types. They cover a wide range of bright colorings and markings too difficult to describe. For summer store decoration or as pot-plants, we know of nothing finer. Start bulbs in damp moss with plenty of bottom heat and an occasional dampening. Do not allow them to get chilled, and at all times grow them in a warm, shaded place.

Extra-Fancy Highly Colored Named Varieties. \$1.75 per doz.; per 100, \$12.00; \$110.00 per 1000.

Mixed Varieties. An assortment especially blended for us. \$1.50 per doz.; per 100, \$10.00; \$90.00 per 1000.

Ismene calathina • Pancratium Lily

Beautiful waxy white flowers, deliciously fragrant. Bulbs are not hardy and should be removed to the house in October. These sell readily as a bulb or flower, and for summer funeral work are equal to lilies. \$1.25 per doz.; per 100, \$8.00; \$75.00 per 1000.

Montbretias, Giant-flowering Varieties

Montbretias resemble miniature gladiolus, are fine for cutting, and excellent for border planting. They prefer a light loamy soil, well enriched with leaf-mould, but no manure or chemical fertilizer should touch the roots; a little bonemeal and a light top-dressing of lime should prove beneficial. They will thrive either in partial shade or full sunlight, but see that the moisture supply is good at all times.

New Philly Fern Pin

A distinct achievement of real value to every florist. Easier to push in place. Easier to handle. Easier on the fingers. The bend holds the leaves firmly. And they cost no more than ordinary pins. \$2.00 per 10-lb. box; 10 boxes \$19.25.

Greening or Florists' Hairpins

PETUNIA

ALLDOUBLE, APPLE BLOSSOM

There are two distinct types of flowers in this strain. About half are fluffy balls of fringed double blooms 4 inches across, while the remainder are semi-double and only 3 inches wide, but all are a lovely shade of apple-blossom-pink, a nice clean color for such a heavily petaled flower. The plants are dwarf, rarely over a foot tall, and bloom until frost.

$\frac{1}{2}$ trade pkt. (500 seeds) \$1.25;
\$2.00 per trade pkt. (1000 seeds);
3 trade pkts. \$5.00

NIEREMBERGIA HIPPOMANICA

NIEREMBERGIA

HIPPOMANICA

The Dwarf Cup-flower is one of those things that happen to a gardener only once in a long while. Little, compact plants 5 or 6 inches tall begin blooming when only half grown, in 15 weeks from seed, and keep it up until frost stops them. The cups are rich lavender-blue, beautified by a touch of yellow at the center, and appear so profusely that they cover the plant, with new blooms popping out and hiding the dying ones and seed-pods if they are not removed. For a border or edging plant this is quite perfect, and it makes ideal pot and window-box material.

Trade pkt. 50c.; \$1.25 per $\frac{1}{64}$ oz.
